International Conference on

WATER-ENERGY-FOOD NEXUS FOR SUSTAINABLE DEVELOPMENT

19-21 November, 2014 ● Pattaya , THAILAND

The nexus approach acknowledges the links between water, energy and food in management, analysis, planning and implementation. The use and management of one of these systems can affect the others, so it is necessary to take a nexus approach to increase understanding of how these three systems are interconnected before taking action to ensure water, energy and food security and sustainability for the future. When the nexus becomes unbalanced, there are clear consequences for public health, economy and the environment. It will be an opportunity to bring together expertise from research to practical application, to policy and regulation which will prove to be a unique forum for the exchange of ideas, experiences and practices between scientific, planning and implementing committees.

Conference Objectives

- Interlinking scientific understanding and progress with policy and decision making to implement water energy and food nexus for sustainable development
- Developing partnerships and networks between interested individuals and institutions with expertise in water, energy and food sectors

Important deadlines!

- ★ **Abstract submission**
- September 15, 2014.

Researchers are invited to submit abstracts of up to 250 words via our website
www.wef4sd.ait.ac.th

- ★ **Abstract selection**
- 25th September, 2014

- ★ **Full Paper submission**
- 25th October, 2014

- ★ **Early bird registration**
- 10th October, 2014

Conference Program

Visit our website www.wef4sd.ait.ac.th
to view the preliminary conference program.

Theme I: Considering the nexus for sustainability

Theme II: Management of water-energy-food nexus

Theme III: Moving forward with nexus approach

Why to attend the Conference

Meet with and listen to leading international and Regional experts in water-energy-food nexus:

- Dr. Andreas Suthhof, Head, Internationalization of Sustainability Research, DLR, *Germany*
- Dr. Fabrice Renaud, Head, Environmental Vulnerability and Ecosystem Services (EVES) Section, UNU-EHS, *Germany*
- Dr. Hideyuki Mori, President, Institute for Global Environmental Strategies (IGES), *Japan*
- Dr. Antonio Lopez, Director, The Water Research Institute, *Italy*
- Prof. Ashim Das Gupta, Emeritus Professor, Asian Institute of Technology (AIT), *Thailand*
- Dr. Eric Kemp-Benedict, Asia Center Director, Stockholm Environment Institute (SEI), *Thailand*

Who can attend WEF4SD !

Wide diversity of stakeholders including, policy and decision makers, researchers and experts, early career scientists and students, development organizations and NGOs, specialized agencies and institutions, private sectors.

Registration Fees

	Full Fees	Early Bird fees
Participants	US \$ 300	US \$ 250
Students	US \$ 150	US \$ 100

Note- Conference fees include lunches, tea breaks, welcome dinner and conference materials. Please contact at our website if you would like to apply for a group discount.
